

## Design

Color scheme is tailored to school colors

Options for light mode or dark mode

different routes have different colors to help differentiate where you're going

**save routes**

instagram design with 5 tabs on bottom

## Sharing

Create a personalized avatar which will appear when people view your location

tracker to share location with friends

Button to alert contacts if you feel unsafe

Daily and weekly competitions for steps and mileage

Notification when you are near a friend or on track to pass them

Students are ranked based on steps and mileage and can win rewards through their school

school rewards: tshirt, cup, mug, better seats to games etc.

kinda like pokemon go: go to certain places and collect "cockys" at said checkpoints. if you hit a certain number of checkpoints throughout the day then you get a medal which helps get rewards

## Features

Safety information on specific areas and options for safer routes when walking alone or at night

input all classes and locations to create the most optimal and time efficient way to get to class

Enter in your schedule when registering and your phone will notify you at the time you should leave to arrive on time

custom route (scenic or city, fast or slow)

User friendly and easy to navigate

Screen change color when you arrive

A notification that alerts you when you should begin walking to class

Customized music that fits to your mood and time of day to make the walk more interesting

tracks total number of steps, miles, and stairs walked throughout the day

accessible options: like if you can't walk stairs, it offers stairless options

can change voices to batman, british girl, british man, etc.

emergency notifications: where not to go

**voice direction**

detects traffic using the color red on routes

## College specifics

**Eliminate tardiness**

**cocky locator**

helps familiarize and create a routine during a chaotic time

event locator with directions and calendar

See if your friends have arrived to class before you if they also use the app

share a walk, post a photo

## Benefits

**Faster route**

**Arrive to class on time**

**promotes a healthy lifestyle**

**low effort, max efficiency**

## Possible Issues

**Unfamiliar with campus**

**Anyone could track you?**

**Taking longer routes than necessary**

**No service on phone**
