Semester Project Part 1: Topic Selection

The name of your website
Fusion Fashion

The description of your topic: must contain at least 5 sentences
Fusion Fashion is the ultimate destination for all things current in fashion. It is an online clothing store that combines the latest trends for men and women. The goal is to provide a fashion-forward selection of clothing, footwear, and accessories that suit current styles. Covers anything from casual wear to formal attire, offering a diverse range of high-quality products for men, women. With an easy-to-navigate website, expert fashion advice, and a vibrant community, Fashion Fusion is where style and convenience converge.

A list of each of the page names-
Home- A welcome to Fusion Fashion
Men's Fashion- An explore page for men's clothing and accessories
Women's Fashion- An explore page for women's clothing and accessories
Admin Dashboard- Exclusive access for administrators
Contact Us- Reach out to our support team

A description of the data you will be storing, manipulating and viewing. Go Into details, e.g. We will be storing a list of tools (Tool name, description, price, producer, ...). Only the administrator will be able to add / edit / delete, so we will need user accounts with login security.
(I am kind of confused on this point and what I have supposed to list.)

Product Listings: Store information about clothing and accessories, including product name, price, sizes, and images. All of these attributes will be listed under the image of the photo.

User Accounts: Users can create accounts with usernames, and secure passwords for login security. User profiles may include additional information like shipping addresses and payment methods.

Reviews and Ratings: Users can leave reviews and ratings for products they have purchased at the bottom of the page.

Admin Dashboard: The admin dashboard allows administrators to add, edit, delete, and have access to user accounts with login security.

Fashion Fusion will prioritize visually aesthetically appealing shopping experiences for all users. So, Fashion Fusion will be storing, manipulating and viewing data to make the experience as good as possible for the customers. Making sure all photos are clear and not blurry for all products listed. As well as accurate and up-to-date prices and sizes. All users can sign-in to add to their shopping cart. Fashion Fusion will also have reviews on each item and an option to write one of your own. Fashion Fusion will use all CSS, HTML, and javascript learned in class.
